To the President and all Legislators:

Whereas the people of the United States are suffering from severe economic distress, due in part to excessive taxation and regulation by the federal government, and

Whereas, the recent bailouts and increased spending will likely result in serious harm to the value of our currency and do little to correct the economic problems caused by government, and

Whereas, much of the Federal government activity and programs are not permitted by the Constitution of the United States, particularly the Tenth Amendment;

So Therefore, Be It Resolved, the undersigned requests that the Federal government immediately move to substantially reduce its size, reduce taxation, balance its budget and obey the Constitution.
